

## REMOTE DEPOSIT

To improve your cash flow and make banking easier, Affiliated Bank offers a unique Remote Deposit service, allowing you to scan checks and make deposits electronically from your computer – anytime, day or night. It's perfect for businesses of all sizes and makes banking more convenient than ever. Imagine no longer needing to drive to the bank to make your deposits!

### **Get Your Funds Faster**

Remote Deposit is the quickest way to get your deposits into your bank account. Using a scanner no bigger than a cowboy hat, you can send images of your checks to our bank – anytime. Rather than sitting around until your next trip to the bank, your money is working smarter for you.

### **Save Time and Money**

Remote Deposit saves time, cuts labor costs, and reduces the number of trips to the bank. These savings more than offset the monthly fee for the service, and benefits add up to the efficiencies that can improve your bottom line.

### **Reduce Fraud and Increase Security**

Faster check deposits allow you to act sooner on returned checks. Remote Deposit also means that deposits won't be lost or stolen as they're driven to the bank. Additionally, multiple layers of security – including password protection, Internet firewalls and 128-bit encryption – mean that your electronic deposits are protected and secure.
